CONGRESSMAN DAVID WU

Has Always Fought to Protect Medicare, Social Security and the Oregon Economy

Difficult times require difficult solutions, and Congressman Wu is a leading voice for real government reform that eliminates waste and duplication. But he believes strongly that cutting Medicare is not the way to balance the federal budget. He'll fight to protect Medicare so America's seniors don't have to.

Protecting Medicare from Cuts that Endanger Seniors

Medicare is a lifesaver for seniors, and hundreds of thousands of Oregonians depend upon it for medical care. But now House leadership has a proposal that eliminates guaranteed benefits and exposes seniors to rising health care costs. As he has done in the past, Congressman Wu will vote against any proposal that privatizes Medicare. And he'll continue working to expand access to affordable drugs as he did when he supported the Medicare Prescription Drug, Improvement, and Modernization Act of 2003. Just last year, he helped pass legislation to close the Medicare donut hole.

Congressman Wu speaks to seniors about what he is doing in Congress to increase disaster readiness in Oregon.

Wrote the Natural Hazards Risk Reduction Act to Guard Against Tsunami and Earthquake Damage

Some of the worst threats to Oregon families and seniors come from a lack of preparation for natural disasters, and Congressman Wu has long been working to ensure we are prepared for serious events such as the earthquakes/tsunamis that occurred last month. That's why he wrote H.R. 1379 to shore up mitigation, response and education plans, and is fighting for recovery help for the Port of Brookings Harbor, which sustained serious damage due to the recent tsunamis.
